

AMENDMENT TO THE SPECIFICATION:

Please amend the paragraph beginning on page 6, line 13, as follows:

Fig. 2 shows an automobile lamp with an illuminant 10 according to the present invention. The structures of the external glass tube 130 and socket 131 are similar to those shown in Fig. 1, and, thus, corresponding components are shown in Fig. 2 with reference numerals incremented by 100 from those used in Fig. 1 and detailed description of these corresponding components will not be repeated.
